1. Summary of Significant Accounting Principles

A. Accounting Practices

The financial statements of Paramount Care of Michigan (the "Company") are presented on a basis of accounting practices prescribed by the Michigan Department of Insurance and Financial Services.

The Michigan Department of Insurance and Financial Services recognizes only statutory accounting practices prescribed by the State of Michigan for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the Michigan Insurance Law. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures Manual, (NAIC SAP) has been adopted as a component of prescribed practices by the State of Michigan.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Michigan is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

The methods for making such estimates and for establishing the resulting liability is continually reviewed and any adjustments are reflected in the period determined.

9. Income Taxes

The application of SSAP No. 101 requires a company to evaluate the recoverability of deferred tax assets and to establish a valuation allowance if necessary to reduce the deferred tax asset to an amount which is more likely than not to be realized. Considerable judgment is required in determining whether a valuation allowance is necessary, and if so, the amount of such valuation allowance. In evaluating the need for a valuation allowance the Company considers many factors, including: (1) the nature of the deferred tax assets and liabilities; (2) whether they are ordinary or capital; (3) the timing of reversal; (4) taxable income in prior carry back years as well as projected taxable earnings exclusive of reversing temporary differences and carry forwards; (5) the length of time that carryovers can be used; (6) unique tax rules that would impact the utilization of the deferred tax assets; and (7) any tax planning strategies that the Company would employ to avoid a tax benefit expiring unused. Although the realization is not assured, the Company believes it is more likely than not that the deferred tax assets, net of valuation allowances, will be realized. As of December 31, 2018 and 2017, no statutory valuation allowance was provided against the company's deferred tax assets.

On December 22, 2017, the U.S. government enacted comprehensive tax legislation commonly referred to as the Tax Cuts and Jobs Act (the "Tax Act"). The Tax Act makes broad and complex changes to the U.S. tax code, including, but not limited to, (1) reducing the U.S. federal corporate tax rate from 35 percent to 21 percent; (2) eliminating the corporate alternative minimum tax (AMT) and changing how existing AMT credits can be realized; (3) bonus depreciation that will allow for full expensing of qualified property; (4) and changing rules regarding the discounting of property and casualty reserves for tax return purposes.

The SEC staff issued SAB 118, which provides guidance on accounting for the tax effects of the Tax Act. SAB 118 provides a measurement period that should not extend beyond one year from the Tax Act enactment date for companies to complete the accounting under ASC 740. In accordance with SAB 118, a company must reflect the income tax effects of those aspects of the Act for which the accounting under ASC 740 is complete. To the extent that a company's

accounting for certain income tax effects of the Tax Act is incomplete but it is able to determine a reasonable estimate, it must record a provisional estimate in the financial statements. If a company cannot determine a provisional estimate to be included in the financial statements, it should continue to apply ASC 740 on the basis of the provisions of the tax laws that were in effect immediately before the enactment of the Tax Act.

The Statutory Accounting Principles (E) Working Group issued INT 18-01: Updated tax Estimates under the Tax Cuts and Jobs Act which provided that year-end 2017 financials should reflect the income tax effects of the Act in which the accounting estimates under SSAP No. 101 are complete. Further, the financials shall recognize impacts for accounting estimates under the Act that may be considered incomplete when a reasonable estimate determinable. Furthermore, consistent with SAB 118, for specific income tax effects of the Act for which a reasonable estimate cannot be determined, reporting entities shall not recognize provisional amounts in the 2017 statutory financial statements. Furthermore, the guidance provided for disclosure for amounts that are incomplete similar to the disclosures required in SAB 118.

The Company's accounting for all elements of the Tax Act is now complete, consistent with the closing of the SAB 118 measurement period on December 22, 2018. As a result of guidance released by the IRS, namely Revenue Procedures 2019-06, the Company recorded the following adjustments to the accounting for the Tax Act during 2018:

Accident and Health Reserves: The Act changes the discount rate and payment patterns utilized to discount certain lines of business when computing the allowable tax reserve deduction. On December 19, 2018, the IRS issued Revenue Procedure 2019-06 which provided taxpayers with the applicable discount factors for use in these computations. As a result of this additional guidance, the Company recorded an increase to its gross deferred tax asset for loss reserve discounting of \$1,348 and an increase to its gross deferred tax liabilities for reserve transition liability of \$1,348 during 2018. The recorded adjustment had no impact on the Company's effective tax rate.

D.-Analysis of Actual Income Tax Expense

The provision for federal income taxes incurred is different from that which would be obtained by applying the statutory Federal income tax rate to income before income taxes. The significant items causing this difference are as follows:

	2018	%	2017	%
Provision computed at statutory rate	\$ 542,244	21 %	\$ 620,865	35 %
Tax Rate Impact-Tax Reform			(314,058)	(18)%
Other			11,396	1
Total	\$ 542,244	21 %	\$ 318,203	18 %
Federal income taxes incurred	\$1,061,084	41 %	\$ (227,317)	(13)%
Change in net deferred income taxes	(511,341)	(20)	551,413	31
Other	(7,499)		(5,893)	
Total statutory income taxes	\$ 542,244	21 %	\$ 318,203	18 %

E.-At December 31, 2018 and 2017, the Company had no operating loss carryforwards to utilize in future years. The Company did not have any deposits admitted under Internal Revenue Code 6603.

The following is income tax incurred for 2016, 2017 and 2018 that is available for recoupment in the event of future net losses:

Year	Ordinary	Capital	Total
2018	1,053,585	-	1,053,585
2017	-	-	-
2016	-	-	-

F.-The Company is a party to a tax sharing agreement with the parent company, PIC, and the affiliated entities as follows: Paramount Preferred Options (PPO), Paramount Care of Michigan, Inc. The method of allocation between the companies is subject to a written agreement approved by the Board of Directors. Intercompany tax balances are settled through the holding company, PIC.

G.-Accounting for tax contingencies

For the years ended December 31, 2018 and 2017, the Company did not have tax contingencies under the principles of SSAP No. 5, *Liabilities, Contingencies and Impairment of Assets*. 14. Contingencies

The Company has been and is currently involved in various governmental investigations, audits, and reviews. These include routine, regular and special investigations, audits and reviews by CMS, state insurance and health and welfare departments, state attorneys general, the Office of Inspector General ("OIG"), the Office of Personnel Management, the Office of Civil Rights, U.S. Congressional committees, the U.S. Department of Justice, U.S. Attorneys, the SEC, the IRS, the U.S. Department of Labor ("DOL"), the Federal Deposit Insurance Corporation, and other governmental authorities. Examples of audits include the risk adjustment data validation ("RADV") audits discussed below and a review by the DOL of the Company's administration of applicable customer employee benefit plans with respect to Employee Retirement Income Security Act of 1974 compliance.

Government actions can result in assessment of damages, civil or criminal fines or penalties, or other sanctions, including loss of licensure or exclusion from participation in government programs and could have a material adverse impact on the accompanying statutory basis statements of admitted assets, liabilities, and capital and surplus or statutory basis statements of operations of the Company.

Risk Adjustment Data Validation Audits ("RADV audits") — CMS adjusts capitation payments to Medicare Advantage and Medicare Part D plans according to the predicted health status of each beneficiary, as supported by data provided by health care providers. The Company collects claim and encounter data from providers, who the Company generally relies on to appropriately code their claim submissions and document their medical records. CMS then determines the risk score and payment amount for each enrolled member based on the health care data submitted and member demographic information.

In February 2012, CMS announced a final RADV audit and payment adjustment methodology and that it will conduct RADV audits beginning with the 2011 payment year. These audits involve a review of medical records maintained by care providers and may result in retrospective adjustments to payments made to health plans. CMS has not communicated how the final payment adjustment under its methodology will be implemented. PIC has been selected for audit by CMS for the 2011 payment year. This audit began in 2014. The impact of potential payment adjustments on the Company's statutory basis financial statement is unknown.

A. Ceded Reinsurance Report

Section 1

- 1. None of the reinsurers listed in Schedule S as non-affiliated, are owned in excess of 10% or controlled, either directly or indirectly, by the company or by any representative, officer, trustee or director of the company.
- 2. None of the polices issued by the company have been reinsured with a company chartered in a country other than the United States (excluding U.S. Branches of such companies) that is owned in excess of 10% or controlled directly or indirectly by an insured, a beneficiary, a creditor or an insured or any other person not primarily engaged in the insurance business.

Section 2

- 1. The company does not have any reinsurance agreements in effect under which the reinsurer may unilaterally cancel any reinsurance for reasons other than for nonpayment of premium or other similar credit.
- 2. The company does not have any reinsurance agreements in effect such that the amount of losses paid or accrued through the statement date may result in a payment to the reinsurer of amounts that, in aggregate and allowing for offset of mutual credits from other reinsurance agreements with the same reinsurer, exceed the total direct premium collected under the reinsured policies.

Section 3

- 1. The aggregate reduction in surplus for termination of all reinsurance agreements, by either party, as of the date of this statement is zero.
- 2. No new agreements have been executed or existing agreements amended since January 1, 2018 to include policies or contracts that were in force or which had existing reserves established by the company as of the effective date of the agreement.

Reserves remaining for prior years are now \$7,964 as a result of re-estimation of unpaid claims and claim adjustment expenses principally on Medicare lines of insurance. Therefore, there has been a \$339,964 favorable prior-year development since December 31, 2017 to December 31, 2018. The decrease is generally a result of ongoing analysis of recent development trends. Original estimates are increased or decreased, as additional information becomes known regarding individual claims.
